

# Statistical Analysis Plan Overview

Prepared by:  
**Doctor Evidence LLC**

This Statistical Analysis Plan overview has been prepared to give GROWTH members an idea of the components that will go into the document and is for informational purposes only. Prior to the data configuration phase (see estimated timeline for project phases), an initial version of the Statistical Analysis Plan will be drafted by the DRE team, and sent to the client for review.

If you have any questions about this form or the project process, please contact Melanie Golob at [mgolob@doctorevidence.com](mailto:mgolob@doctorevidence.com).

## Contents:

### 1. Background and Rationale

### 2. Objectives

- 2.1. Research Question(s)
- 2.2. Scope of Work
- 2.3. Key Analysis Objectives

### 3. Study Selection

- 3.1. Study Selection Criteria
  - 3.1.1. PICO criteria and other factors
- Table 1: PICO Eligibility Criteria
- 3.2. Data Sources

### 4. Methods

- 4.1. Methods and Approach of Data Synthesis
- 4.2. Assessment of Heterogeneity

### 4.3. Approach for Missing Data

- 4.4. Unit of Analysis Issues
- 4.5. Assessment of Model Fit
- 4.6. Software

### 5. Planned Analysis

- 5.1. Outcomes for Analysis
- Table 2: Outcomes for analysis
- 5.2. Transformations
- Table 3: Transformations
- 5.3. Subgroup and Sensitivity/Scenario Analysis

### 6. Sources Referenced

- 6.1. General Background Sources
