

Systematic Review Protocol Overview

Prepared by:
Doctor Evidence LLC

This Systematic Review Protocol overview has been prepared to give GROWTH members an idea of the components that will go into the document and is for informational purposes only. Following the project kick-off call, an initial version of the Systematic Review Protocol will be drafted by the DRE team, and sent to the client for review.

If you have any questions about this form or the project process please contact Melanie Golob at mgolob@doctorevidence.com.

Contents:

1. Background

- 1.1. Disease/therapeutic area
